

《香港固體廢物監察報告》未披露膠樽回收量等 或削弱公眾監察減廢成效

Hong Kong's 2024 Waste Report Falls Short:  
Plastic Bottle Recycling Figures Still Missing

棄數未盡：

反思《香港固體廢物監察報告》

的統計

目前生產者責任計劃已涵蓋多項產品，亦計劃納入飲品膠樽，但環保署於去年 12 月發表的《香港固體廢物監察報告》尚未完整公布其回收量及棄置量。綠惜地球認為，環保署宜及早公開相關數據，以便公眾檢視生產者責任計劃的減廢和回收成效。另外，《報告》未有分析廚餘成分，署方宜進行相關研究，與民間一同制訂有效的減廢措施。

The Environmental Protection Department (EPD) published its "Monitoring of Solid Waste in Hong Kong 2024" in December 2025. However, the report has yet to fully disclose the recycling and disposal figures for items covered by the Producer Responsibility Scheme, which currently includes a range of products and is set to expand to plastic beverage bottles. The Green Earth (TGE) believes the EPD should release relevant data as soon as possible, so the public can assess the scheme's performance in waste reduction and recycling. Furthermore, the report did

not analyze the composition of food waste. The EPD should conduct such research and work with the community to develop effective waste reduction measures.

## 超市設入樽機及人手回收點 環保署另准批量回收 本會促謹慎立法免混洋垃圾 EPD Rolls Out RVMs and Bulk Recycling at Supermarkets; TGE Urges Careful Legislation to Prevent Foreign Waste Mixing

政府計劃推行塑膠飲料容器及紙包飲品盒生產者責任計劃，環保署去年10月起於超市試用入樽機及設置人手回收點。綠惜地球曾到訪人手回收點實測，認為試驗時期宜延長，並作更廣泛宣傳，以鼓勵市民及職員就流程和安排提供意見。另外，環保署稱批准以「批量方式」回收膠樽及紙包飲品盒。本會關注可能出現混入洋垃圾（即非本地飲品容器）等情況，敦促當局日後立法時要考慮具體措施，以免出現法例漏洞。

媒體報道：

As Hong Kong prepares to implement Producer Responsibility Schemes (PRS) for plastic beverage containers and cartons, the Environmental Protection Department (EPD) has been installing Reverse Vending Machines (RVMs) and setting up manual recycling points in supermarkets since October 2025.

After testing the manual recycling points, TGE believes the trial period should be extended and better promoted to encourage public and staff feedback on procedures and arrangements.

[環團測試 店員不知人手回收 3樽花5分鐘 星4月推膠樽鋁罐回收 押金0.1坡元「先付後還」](#)

The EPD has also approved “bulk recycling” for plastic bottles and cartons. TGE is concerned this could allow imported waste to be mixed in and urges the authorities to include specific safeguards in future legislation to prevent loopholes.

As Spring arrives and all things renew, The Green Earth is actively preparing for a new year of tree planting!

This year marks the 10th anniversary of The Green Earth, and the young seedlings at our planting sites are an integral part of our environmental mission. We're kicking off the celebrations with a tree-planting event at our planting site, inviting everyone to share the joy alongside our little seedlings! Whether you're a new friend or longtime supporter, we warmly welcome you to donate and sponsor a sapling, join our Tree Planting Thanksgiving Day, visit The Green Earth Woodland, and learn about our tree-planting work.

Founding members **Mr. Edwin Lau** and **Mr. Hahn Chu**, together with the current team, will gather with everyone under the forest canopy to reminisce about The Green Earth, share stories, and celebrate our 10th anniversary.

# 義工麥二大東山清理66磅垃圾

山友大東山遺尿片  
撲朔迷離

本會與逾 20 名義工在農曆新年長假期後舉行「山徑應援團 — 新年大掃除 X 山徑調查行動」，前往兩條熱門山徑——麥理浩徑二段及大東山鳳凰徑第二段，合共清理 66 磅垃圾，並進行山徑調查及廢物統計，發現有尿片等難以想像的垃圾被棄置在山徑上，反映長假期期間的郊野垃圾問題。因此，加強教育提升遊人對「無痕山林」的意識將有助紓緩問題。

感謝義工們無懼酷熱陽光、強風與濃霧等天氣淨山和記錄廢物種類和數量，協助本會推動[可持續山](#)

## 農曆新年淨山報告

Following the Lunar New Year long holiday, The Green Earth and over 20 volunteers organized the “Trail Support Team — New Year Big Cleanup & Trail Survey Action” on two popular hiking trails — MacLehose Trail (Section 2) and Sunset Peak on Lantau Trail (Section 2). We collected 66 pounds of litter, conducted trail surveys and waste audits, and discovered unimaginable items like diapers discarded along the trails, highlighting the trail litter problem during extended holidays. Strengthening education to boost hikers’ “Leave No Trace” awareness will help alleviate this issue.

Thanks to our volunteers who braved scorching sun, strong winds, and thick fog to clean the trails and record waste types and quantities, supporting our #SustainableTrails and #LeaveNoTrace campaigns.

We hope that every hiker leaves no trace on the trail!

### 深港兩地交流共學 - 手作步道 X 無痕山林

### Shenzhen–Hong Kong Exchange: Handcrafted Trails and Leave No Trace

去年底及本年初，本會受深圳園境機構「境蘭生態景觀」邀請，到深圳進行教育及山徑修復交流活動。

我們在去年 12 月擔任福田區城市管理和綜合執法局主辦的「小小步道師計劃」的導師，帶領 20 位 8 - 12 歲的小孩進行「無痕山林」(LNT) 體驗式學習活動，從互動遊戲中了解並思考「無痕山林」的意義。

「自己山徑自己修」義工隊今年一月則與「境蘭」首次聯乘手作步道交流活動。我們踏足鯤鵬徑第八段，與當地義工一同修復土質鬆散的陡坡。由於遊人使用量大，水土流失及山徑擴闊問題非常嚴重，兩地義工共同討論不同方案，最後一起修建了一段供遊人安全踩踏的階級。

我們希望將來透過與不同地區的交流合作，合力將可持續山徑及無痕山林訊息推動得更廣更遠。

At the end of last year and beginning of this year, The Green Earth was invited by Shenzhen's "Dreamland Ecological Landscape" (境蘭生態景觀) to conduct environmental education and trail restoration exchange activities.

In December 2025, we served as mentors for the "Little Trail Master Programme" hosted by the Futian District Urban Management and Comprehensive Law Enforcement Bureau, leading 20 children aged 8–12 in experiential "Leave No Trace" (LNT) learning activities. Through interactive games, they explored and reflected on the meaning of LNT principles.

In January 2026, our "Build Your Own Trail" volunteer team joined Dreamland for the first

collaborative handcrafted trail workshop. We worked with local volunteers on Section 8 of Kunpeng Trail to repair a steep, eroded slope caused by heavy foot traffic and trail widening. After discussing solutions together, we built a set of safe steps for hikers.

We hope to expand sustainable trails and Leave No Trace messaging further through future cross-regional exchanges.

**「綠惜盛事認證計劃」助大型活動減廢 Green Events Certification Scheme: Helping Major Events Cut Waste for True Sustainability**

你參與嘅活動係「時代指標」  
定係「流水作業」？

# 3 大細節 見質素

在企業提倡 ESG（環境保護、社會責任和公司治理）盛行的年代，你參加的大型活動是言行合一的環保活動，還是流於表面的形象工程？作為參加者，從以下三大細節可見一斑。

1. 好的活動策劃能夠將廢物變成資源，從活動結束後的廢物量及種類，即可了解主辦單位的減廢和回收成效。
2. 無紙化宣傳，先算真潮流。印幾千份場刊，但大家卻愛網上看，不是浪費資源嗎？

3. 物料可回收只是第一步，「重用」物料用具才算達標。

如果你參加的活動有我們「綠惜盛事認證計劃」標誌，更能彰顯活動主辦方對可持續發展的承諾。

[了解更多綠惜盛事認證計劃](#)

In an era where ESG (Environmental, Social, and Governance) principles are widely championed, are the large-scale events you attend truly environmentally responsible benchmarks for our time, or merely superficial image exercises? Even as a participant, you can spot the difference from these three key details:

1. Waste as Resources: Smart event planning turns waste into resources. Check the amount and types of waste left behind to gauge the organizer's waste reduction and recycling efforts.
2. Paperless Promotion: Printing thousands of brochures when everyone reads online—isn't that wasteful? True sustainability goes digital.
3. Reusable Materials: Recycling is a start, but reusing materials and equipment is the real benchmark.

「惜山競走 2026」是由綠惜地球主辦的環保遠足挑戰賽，旨在鼓勵公眾以「無痕山林」(Leave No Trace) 七大原則為本，在遠足時清理垃圾及進行廢物調查，除了加深對香港生物多樣性的認識，共同守護山徑及郊野公園的自然環境，調查所得的數據亦有助本會提升公眾對山徑垃圾問題的關注。

本會製作《惜山競走指南》，指南內容包括十條建議淨山路線、無痕山林七大原則、物資清單等，特別適合公司團體活動、朋友組隊或家庭參與。隊伍只需完成指定活動，即有機會贏取豐富獎項。

Professor Alexis Lau led The Green Earth for five and a half years. Due to his increasingly heavy personal workload, he tendered his resignation as Chairperson to the Board on 21 February 2026, fearing he could no longer adequately manage organizational affairs. The Board approved his resignation at the 25 February meeting.

The Board immediately elected Dr. Frederick Lee as the new Chairperson, effective 1 March 2026 until this year's Annual General Meeting.

The Board extends heartfelt appreciation to Professor Lau for his leadership and contributions to The Green Earth over the past five and a half years.

綠惜地球十周年標誌

綠 惜 地 球  
T H E G R E E N E A R T H

為誌慶綠惜地球成立十周年，本會特別推出周年標誌，象徵重要里程碑。標誌由董事局副主席盧永強先生設計，以原有標誌為基礎，結合線條構成「10」字圖案。左側由細至粗的五條線，寓意十年來一步一腳印的累積與成長，亦象徵年輪，每條代表兩年，見證機構由初創，十年來成為本地務實而「貼地」的環保團體的歷程。衷心感謝各界多年支持，未來讓我們繼續攜手守護環境。今年將舉行一系列十周年活動，敬請留意本會網頁及於社交平台最新消息。

To commemorate the tenth anniversary of The Green Earth, the organisation has specially launched an anniversary logo to mark this important milestone. Designed by Mr David Lo, our Vice Chairperson, the logo is based on the organisation's original emblem and incorporates linear elements forming the number "10".

The five lines on the left-hand side, progressing from fine to bold, symbolise the gradual accumulation and steady growth achieved over the past decade. They also resemble tree rings, representing the passage of time, with each line signifying two years. Together, they bear witness to Green Earth's journey from a small start-up organisation to a practical and community-focused environmental group in Hong Kong in ten years' time.

We extend our heartfelt thanks to all sectors for their long-standing support. Looking ahead, let us continue to work hand in hand to safeguard our environment. A series of tenth anniversary activities will be held throughout the year. Please stay tuned to our website and social media platforms for the latest updates.
